

Installing and Configuring Client software

Step 1: Installing 2X client software for laptop users:

1. Download "2x client for Desktop" from <http://www.2x.com/rdp-client/download>
2. Register and Download the client for your system.
3. Install the client. During installation, you are asked whether to install single sign-on or not, choose No.
4. When running 2x client for the first time, it will ask you to setup a new connection. Click Yes to proceed.
5. Enter the following info:
 - a. Primary Connection: gateway.chbe.ubc.ca
 - b. Secondary Connection: pub.chbe.ubc.ca
 - c. Connection Mode: Gateway SSL Mode
 - d. Port: 443
 - e. Alias: (Leave it as blank)
 - f. Auto Logon: Checked
 - g. Username: Your username for logging on lab computers
 - h. Password: Your password
 - i. Save Password: Checked
 - j. Domain: chbe_labs
6. Click Ok to finish

Step 2: Configuring 2X Client if it is not done in Step 1:

1. Open 2X program.
2. Click File, click Add New 2X Connection, click 2X Application Server, then enter the following info:
 - a. Primary Connection: gateway.chbe.ubc.ca
 - b. Secondary Connection: pub.chbe.ubc.ca
 - c. Connection Mode: Gateway SSL Mode
 - d. Port: 443
 - e. Alias: (Leave it as blank)
 - f. Auto Logon: Checked
 - g. Username: Your username for logging on lab computers
 - h. Password: Your password
 - i. Save Password: Checked
 - j. Domain: chbe_labs
3. Click Ok to finish

Step 3: (For MAC User Only) Configuring 2X Client to Make Local Drives Available

2X client must be configured to make the Macintosh HD drives shown up.

1. Click Connection Properties
2. Click Local Resources
3. Check Disk drives,

4. Click Configure... at right of Disk drives
5. Click + sign
6. Select your Macintosh HD
7. Click Open
8. Click Ok, then OK again.
9. Now Click the 2X Client RDP on the title bar beside the Apple icon, click Quit 2X Client RDP
10. Reopen 2X Client RDP application, the local drive or folder will be shown when you "Save as" your project.

Remote Access to the Published Applications

1. Open 2X program.
2. Double click the application shortcut in the right pane.

Note: Due to license restrictions, many applications can be used (seen) on campus only.
